REFERENCE

Executive Protection has existed in one form or another for thousands of years and although the world may have changed considerably in the following centuries, the threats remain.

The protection of individuals is a profession that is becoming increasingly important in the face of the sophistication of threats against officials. Especially in Mexico, that is why the EP SUMMIT was born from the need to make more efficient the work of the protector or administrator of protection bodies, safeguarding their physical and mental integrity, giving you the knowledge and practical tools developed by the world's most advanced protective equipment. However, doing it correctly is not such a simple matter and involves a lot of planning, preparation and implementation

Planning begins with the understanding that executive protection should be considered an essential and standard requirement for many corporate executives because of the benefits that are obtained when executive protection is implemented from effective way. Not only by the individual executive but also by the corporation they represent.

WHO SHOULD ATTEND?

- EP Security directors and managers
- EP Executive protection administrators
- EP Operational and protection personnel
- EP Owners of security companies
- EP Official government agencies
